Array Image Studio

Every filter works on a flat array of pixels: pixel (row, col) is at `index = row * width + col`.

Upload image | Demo image | Brighten +20 | Darken -20 | Invert | Flip | Rotate 90° | Blur | Edges | Reset

256 x 256 pixels, 65,536 array elements

Image

Histogram (256-element array)

```
// Blur: each pixel becomes the average of its 3x3 neighbors
for (dr = -1; dr <= 1; dr++)
  for (dc = -1; dc <= 1; dc++)
    total += px[(r + dr) * w + (c + dc)];   // neighbors by index offset
```
